## Technical Guide for the Design and Construction of Tall Wood Buildings in Canada

Special Publication: SP-55E

Although the *Technical Guide for the Design and Construction of Tall Wood Buildings in Canada* has been produced with great care and accuracy, such a voluminous document contains some errors that were only detected after its publication. The following are corrections to the different chapters and sections.

| Section                | Location                | Error   | Amendment   |
|------------------------|-------------------------|---|---|
| List of Contributors   | First page, first entry | Emily Sprague, <i>March</i>   | Degree should be <i>M.Arch.</i>   |
|                        | First page, eight entry | Peter Moonen  | Add to end of name <i>B.Sc., Biol/Zool</i>  |
|                        | Second page, entry 23   | Read Jones Christoffersen Ltd. rjc.a  | Website should be rjc.ca  |
| Chapter 1              | Cover page              | Eric Karch  | Name should be Eric Karsh   |
| Chapter 2              | Cover page              |   | Add as Peer Reviewer David Horos  |
|                        | p. 34, first paragraph  | 3. Provide a zone of services along the floor perimeter in corridors and at doorways to run s | Sentence should read<br>3. Provide a zone of services along the floor perimeter in corridors and at doorways to run services and outlets. |
| Chapter 4              | Page ii                 | Section 4.1 Recommendations for Conceptual Design   | Change title for Section 4.1 to Considerations for Conceptual Design  |
| Chapter 4, section 4.1 | Cover page              | Recommendations for Conceptual Design   | Change title to Considerations for Conceptual Design  |
|                        |                         |   | Add as Peer Reviewer Benton Johnson   |
| Chapter 4, section 4.2 | Cover page              |   | Add as Peer Reviewer Benton Johnson   |

|                           |  |  |  |
|---------------------------|--|--|--|
| Chapter 4,<br>section 4.3 | Cover page                                       |  | Add as Peer Reviewer<br>Benton Johnson                             |
|                           | p. 49,<br>Section<br>4.3.4.2, first<br>paragraph | NBCC clause 4.1.7.2.(1) requires the use of dynamic or experimental procedures for buildings whose height is greater than 4 times their minimum effective width, or greater than 120 m (...) | Sentence should read<br>..., or greater than 60 m ...              |
| Chapter 4,<br>section 4.4 | Cover page                                       | Eric Karch   | Name should be<br>Eric Karsh                                       |
