

**Wood Products Markets & Economics Analyst – Business  
Analytics  
Vancouver, BC or Quebec City, QC**

**About FPInnovations**

FPInnovations is among the world's largest private, non-profit research centres working in forest research. The organisation helps the Canadian forest industry to develop path-breaking solutions based on the unique attributes of Canada's forest resources, favouring a sustainable development approach and taking full advantage of the industry's considerable scientific, technological and commercial capital.

**Description**

To serve its members and customers, the Business Intelligence (BI) group works with a variety of industrial partners, development agencies, financing institutions, governments and others. The group produces market intelligence, economic analyses, and business development tools for wood products and other forest products.

The Wood Products Markets and Economics Analyst will research markets, work within the BI team to track and identify market trends and conditions, analyse market conditions to highlight opportunities, and provide strategic advice to members and clients. The successful candidate will be involved in a variety of projects requiring synthesis, strong business acumen, and proven client facing experience. This position will be based in Vancouver or Quebec and may require regular travel throughout Canada.

The successful candidate will:

- Carry out detailed market analysis and prepare project reports
- Manage and maintain detailed databases on markets, global trade and economics
- Build new analysis tools to analyse opportunities and provide insight for clients
- Conduct research into international market opportunities for wood products
- Support member companies and clients by delivering contracts and projects on time and on budget
- Ensure that FPInnovations continues to build and expand expertise and knowledge by working with experts world-wide

**Qualifications**

- Post-secondary degree or diploma in relevant subject matter
- Excel, database and Tableau experience
- 3-5 years industry experience in wood products or global trade
- Proven ability in client facing situations
- Strong oral and written communication skills, including the ability to make presentations to varied audiences
- Knowledge of wood products, grades and applications strongly preferred
- Financial skills considered an asset
